

Subject Line: Take care of yourself and your family with preventive care

Preheader Text: Preventive care checklist

Greetings,

I want to take this time to check in and share the importance of scheduling your preventive care appointments, like checkups and screenings. I know that many of us have put our health on hold, and it's time to get back on track and get the care we need. Our health and our mission depend on it.

Attached to this email you'll find a checklist of recommended preventive care screenings. I encourage you to read this list and see if there are any gaps in your family's health care services.

If you have questions, let me know.

Thank you,
